

Risk Management

The Pisces Road Playgroup takes child safety seriously.

- As Pisces Road Playgroup requires parents/caregivers to be present with their child during playgroup sessions, parents/caregivers are ultimately responsible for the safety and well being of their OWN children
- Pisces Road Playgroup encourages and asks ALL parents/caregivers to take their place in supervising ALL children in the inside/outside play areas. This is especially important when parents/caregivers are helping organising an activity.
- Safety reminders are placed in room.
- The outside play area is fully fenced.
- A First Aid Kit is available at all times.
- Written Evacuation and Emergency procedures are placed throughout the Community House. An emergency drill is undertaken once a year.
- Safety Check are done weekly by the Supervisor – Check sheet attached

Parents/caregivers are asked to park prams outside on the covered deck area and out of the way of children (weather permitting).
